ASX Release

26 November 2026

FY27 Guidance Update

Bravura Solutions Limited (ASX: BVS) ("Bravura" or the "Company") today upgrades its FY27 Revenue and Cash EBITDA guidance, previously provided on 12 August 2026.

Based on year-to-date performance and current forecasts, the Company expects:

- Revenue for FY27 to be in the range $285m to $305m (previous guidance: $280m to $300m).
- Cash EBITDA[1] for FY27 to be in the range $93m to $103m (previous guidance: $84m to $94m).

The key drivers of the improved outcome are:

- Strong demand for project services across our business units.
- Overall cost discipline maintained.
- Benefits from improving foreign exchange rates.

This update reflects a change in FX assumption to an assumed GBP/AUD exchange rate of 1.95 for the remainder of FY27.

Colin Greenhill, Group CEO and Managing Director, said "We are pleased to upgrade our FY27 revenue and Cash EBITDA guidance. The improved outlook reflects the continued benefits of disciplined cost management across the business together with increased certainty in our project services revenue outlook. These factors provide greater confidence in our earnings expectations for FY27, while continuing to support investment in our customers, technology and growth initiatives."

[1] Cash EBITDA is revenue minus operating costs (including hosting asset depreciation), capitalised development costs, PPE capex, lease costs and one-off revenue adjustments.

– ENDS –
